

EXCITING NEWS FOR OUR CUSTOMERS:
**CONSTANTIA ECOFLEX - THE 1st PLANT ON THE PLANET
PRODUCING ONLY FLEXIBLE PACKAGING IS FULLY
OPERATIONAL**

Constantia Flexibles proudly opens a brand new, state-of-the-art plant Constantia Ecoflex Ahmedabad. Here we're producing EcoLam, a whole family of high barrier monopolymers laminates based on PE for global demand. EcoLam is fully recyclable and perfectly suitable for Food as well as Home & Personal Care products. Constantia Ecoflex is the first plant on the planet dedicated to fully recyclable flexible packaging only.

Constantia Flexibles employees care for others

The winners of the Constantia Flexibles' Social Awards 2019 were announced. This Award acknowledges Constantia Flexibles colleagues who care for others and show solidarity with people in need.

Who's engagement was rewarded this year?

Asian Paints switched all DIY products from PET/PE to EcoLam

Indian multinational paints and coating company Asian Paints was one of the pioneers making use of our sustainable EcoLam mono PE laminate packaging. This example shows that Ecolam is the perfect substitution for PET/PE laminates and does not only provide the perfect protection for liquid paints, but the customer also appraises the printing quality that EcoLam offers.
